

The Daily Gazetteer.

TUESDAY, AUGUST 9. 1737.

96 662.

HE Count de Galowkin, the Czarina's Ambassador Extraordinary at the Hague, receiv'd Advice on the 31st ult. O. S. that on the 2d of that Month the Count de Munich made himself Master of Oczakow, where were betwixt 17 and 20,000 Janissaries and Arnauts.

following is the Extract of a Letter to the, from Count Munich himself, dated at Oc- the very Day that he took that Place.

arrived a few Days ago with your Imperial Majesty's Army before Oczakow. I immediately made all the necessary Dispositions for attacking it; by means of the Fortify'd Gardens which the my had abandon'd on our Right, I made my marches towards the Town with all the Success could be desired. Yesterday we drove the my from their Intrenchments, and fortify'd es about the Place, and pushed them to the Counter-scarp of the Fortres. Tho' Your Majesty's Troops had been continually employ'd three Days successively, and skirmishing every and then with the Enemy, yet I this Day resolv'd to give a General Storm; considering the situation of the Place, and that the Garison, which had consisted of between 17 and 20,000 Janissaries, Arnauts, and others, all pick'd Men, ex- tenuated a considerable Supply: And this Resolu- was, by the Divine Protection, happily ex- ed. We immediately forced our Way to the sadoes: And tho' the Issue was a while doubt- because of the brave Defense made by so nu- nious a Garison; yet so extraordinary was the our of your Imperial Majesty's Troops, and to ask the Attack, that the Enemy were forced in a ment to hang up the White Flag, and to sur- render, so that the Town is now in our Hands. I humbly congratulate your Imperial Majesty on new Victory, which the Almighty has granted your Arms. This Action was not performed about some Loss on our Side, considering the situation of the Fights, and the Defense made by the Enemy, who fought like Desperados; yet the number of our Slain is not very great, but that of Wounded is more considerable.

As to the General Officers, I have the Honour humbly to inform your Imperial Majesty, that the Prince of Hesse-Hombourg, General of Ordnance, to guard the Lines of Circumvallation, against any Enemy that might appear there; that the Prince of Brunswick was always with during the Storm, in which he signalized himself very much, and had a Horse kill'd under him. The General Rumainzow, and Lieutenant-General Bon are well, as is also the Adjutant-General Bu- sines, who led on your Imperial Majesty's Guards with very great Bravery. The Lieutenant-General Kaitte and Löwendahl, together with the Major-General Arrakzyes, are wounded; and I cannot sufficiently express to Your Majesty the Valour of those Generals, as well as the other Officers. Soldiers shew'd upon this Occasion. I will send your Majesty the other Particulars by a fresh Cou- rier, rather than delay the Departure of this. The Court had also received an Express from Velt Lasci, with Advice, that on the 19th of O. S. he passed into the Crim-Tartary, over a large of Boats, which he caused to be laid over the Sea at Cadzis; that he marched from thence towards Arrabat, 8 Leagues from Kerez; the Vice-Admiral Bredal, who commands the Boats, was to land the Troops he had on board his Vessel, to make a Diversion some Leagues from Kerez; that General Lasci had met with no Manner opposition, because the Kan stay'd with his Ar- specting him all the while at Precop; and that the Detachment of 400 Tartars falling in the had been defeated, and put to Flight.

Other Letters from Petersburg say, That Count

Mortars, some Hauitzers, and above 12,000 Muskets, but no great Quantity of Ammunition and Provisions; because their Magazines had been destroyed by the Russians Bombs: That Count Munich, after having left a Garison of 10,000 Men in Oczakow, was marched again, and advanced 12 Werstes, or Russian Miles, beyond Oczakow, in quest of the Turkish Army. — Tis added, that the Prince of Hesse-Hombourg has also defeated a great Detach- ment of Tartars, and taken a good Number of Horses from them; of which he has sent the finest to Petersbourg, and particularly Four, as a Present to the new Duke of Courland.

The Town of Oczakow, which lies near the Mouth of the Nieper, about 37 Miles N. E. from Biagrod, first belonged to the Lithuanians, from whom it was taken by the Tartars, and upon their Defeat by the Poles, in 1644, afterwards received a Turkish Garison. Tho' 'tis no very considerable Place, yet the Conquest of it is of the more Importance to the Russians, because it gives them a free Communication with the Army of Velt Marshal Lasci, and a better Opportunity of receiving Provisions by the Borysthenes.

Letters of the 23d ult. from Vienna say, That the Provinces of Wallachia and Moldavia, being not able to stand against the Imperial Troops, the Hos- podars of those two Provinces had sent Deputies, to declare their Submission to the Emperor, and their Desire of his Protection.

Those from the Grand Army of the Imperialists say, That General Philippi was gone with a great Detachment to secure Toponicka, 2 Leagues from Nissa, the Garison of which City seem'd dispos'd to make a stout Defense; and that when Colonel Lentulus passed the Morave, he heard that the Turks had abandoned all the Places between that River and the Town of Procupia, and had retired to that Town with their Effects.

The Advices from Bosnia confirm the Defeat of a Body of Troops, commanded by the Basha of Banialucka, but not the Taking of that Fortres, which the Prince of Saxe-Hilburghausen intended however to lay speedy Siege to; unless the Motions which the Turks are making on the Frontiers of Croatia, oblige him to march that Way, to assist the Ban of that Province. The Count de Wurmbrand, General of the Imperial Cavalry, has been extremely ill, and some say that on the 12th Instant he died.

The Emperor has signified to the Dyer of Ratisbon, That he hopes the States of the Empire will grant him 50,000 Roman Months, which amounts to 2,500,000 German Florins, for the War against the Turks.

Robert late Earl of Carnwath, a Nobleman of ex-emplary Piety, Virtue and Honour, and has left Issue two Sons and two Daughters by his four Ladies. We hear that the associated Brethren, who lately erected themselves into a Prebetyry, have appointed a Fast to be kept next Wednesday at Linton, Cambulneth, and Ochil-hills; Places very proper for Fasting, they not being able to afford Victuals to one Tenth Part of the vast Numbers that will flock thither on this Occasion.

Last Week arrived here from London, Miss Thornhill, a young Lady of a vast Fortune, to see this Country.

Lynn-Regis, August 2. On Saturday about Five in the Afternoon, a Seizure of three Anchors of Brandy and two of Rum, was made by the Officers of Ex- cise, in a Pleasure-Boat, which was safely convey'd that Evening to the Custom-house, and the Boat moored there.

The same Evening, between Eleven and Twelve, a Fire broke out at the Oil-Mill out at South-Gates, belonging to Mr. Fish, which in a few Hours con- sumed the same to the Ground, with two Tenements which joined thereto; and the Damage thereby is computed at 900 l.

Norepitch, August 6. Last Monday the Hon. Ar- tillery Company held their Annual Venison Feast, at the New-Hall; where were present a great Num- ber of Gentlemen, who express their entire Satis- faction thereat: After Dinner His Majesty's, the Queen's, Prince and Princes of Wales, and the rest of the Royal Family's Healths went round, with those of the Right Hon. the Lord Vis. Townshend, and Lord Lynn our Lord Lieutenant, Sir Robert Walpole, and Horatio Walpole and Thomas Vere, Esq; our two Worthy Members, and a great many other Loyal Healths, with loud Huzza's, &c.

Canterbury, August 6. On receiving the News of her Royal Highness the Prince of Wales's being safely deliver'd of a young Prince, the Bells of this Cathedral were rung, and the Soldiers quarter'd here were drawn up in the Church-yard, and dis- charged their Fire-Arms.

On the Night between Wednesday and Thursday we had here a terrible Storm of Wind and Rain; one of the beautiful Windows of the Cathedral was blown, Frame and all, into the Church, and shat- tered to Pieces.

Yesterday died here, John Gray, Doctor of Physick, a Gentleman of great Practice in these Parts, and exceeding kind to the Poor, near 50 Years of Age: His Distemper was the Stone, for which he had been cut near 40 Years ago.

The above-mentioned Storms of Wind and Rain, have done incredible Damage to the Hop-Plantations in these Parts; which, considering the Damage they received before from the Wind about a Fort- night ago, will make Hops bear a great Price; for, we hear, there are not many Old Hops in hand. Before these Winds happened there was a Prospect of a pretty good Crop.

Concerning Gleets and Seminal Weaknesses of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Causa whatever; and that they are dangerous in their Consequences, as well as difficult to cure, as is certain, since they exceedingly weaken the Generative Faculties, infest the whole Nervous System, often bring on Hectick Heats, a Tabes Dorofilia, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emisions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetes, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY, is neither disagreeable to take, nor occasions the least Discomfort, but is a wonderful Restorative in all Weaknesses and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an imminent Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprized at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this, All who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6s. Pot of Balsamick Electuary.

The only short and infallible CURE for the HEMORRHoids or PILES of all Kinds, or in either Sex; and allowed to be by the most eminent Physicians in Europe.

IT is a pleasant ELECTUARY, which infallibly cures the Piles, be they ever so large, even after all other Means have failed, and can cure any Trouble, Difficulty, or the least Confinement, sharpest Pain, and most miserable Torture, it gives Relief, and almost miraculous Ease.

No sooner is it taken scarcely, but all manner of Diseases vanish, as if by Inchantment, and the Patient is perfectly well and free from Pain, as if no such had ever been, and this it not only accomplishes present, in all Persons whatsoever, but also, by subduing all Sharpness in the Blood and Juices, it prevents any Return of the Piles for the future, entirely to cure that Illness, and thereby prevent all other direful Consequences, that cannot be dreaded.

Thousands of Men and Women, who had for many years or less, been wretchedly afflicted with the Piles, at once been perfectly cured by this great Remedy, no less Joy and Comfort than Admiration. It is so safe, that a sucking Child might take it with convenience, for it never occasions the least Trouble, and is so very agreeable to take, as not to give the nicest Palate. Is sold only at Jacob's Coffee-house, the Angel and Crown Tavern in Broad-street, and Royal-Exchange, at 5s. a Pot, with Directions.

These are to Certify whom it may concern,

THAT the Two Medicines for the external Use, which have been sold with success for the Good of Mankind near Thirty Years last, the Cure of

All Sorts of RUPTURES, BURSTING, BROKEN BELLIES.

are removed from the Minories, where they have been the Author, so long, and are now sold only at Mr. Radford's Toyshop, the Sign of the Griffin, the Corner of St. James's Street and the Poultry, at 5s. the Parcel, sealed up with Directions given with them.

These two Remedies need no other Recommendation, themselves will manifest in two or three Days using, in their admirable and even astonishing Success, gained by their use, which they so justly deserve, both in City and Country, after wearing Trusses for many Years to no Purpose.

For by the Blessing of God, they make a perfect Cure, either on Old or Young, in a very little Time, and for a small Charge, without any Pain to, or Confinement of the Person, the one Parcel is generally sufficient for a compleat Cure on a young Person.

Many Hundreds of all Ages and Sexes have been cured by them, which occasioned this Publication, for the Good of the Publick, that all such unhappy People may be delivered from the Charge and Slavery of always wearing Trusses.

The World might have had many Certificates of Persons of all Ages, from Children of a few Months to Grown Persons of 60 Years or upwards; but for the Hindrance of People being utterly averse to let it be known that they ever had such an Infirmity: Yet Mr. Radford is here said, tho' he has not had such large Numbers of Persons cured, as he might have done, for the reason of the short Time he has sold 'em, as they find the Medicines are now, for good Reasons, removed.
